Objective

Highly driven Computer Science engineering student with strong fundamentals in programming, databases, data structures, and distributed systems. Skilled in C++ with working knowledge of Python, Java, SQL, and Linux.

Technical Skills

Languages: C, C++, Python

Web Technologies: HTML, CSS, JavaScript

Database: MySQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS

Projects

Zero Trust Enterprise Model (Full-Stack Security System)

Developed a full-stack application based on the “Never Trust, Always Verify” security principle

Multimedia Encryption Web Application

Built a secure web platform with OTP-based email authentication for user verification. Enabled encryption and decryption of image, audio, and video files.

Mini Compiler (C Language)

Developed a mini compiler using C with Lex and Yacc, implementing the complete compilation pipeline. Successfully translated source code into target machine-level output, ensuring correct execution results

AI/ML Student Performance Prediction System (Full Stack)

Developed a web-based machine learning system to predict student performance using historical data. Achieved approximately 95% prediction accuracy through model training and optimization.

Education

Course	Institute	Year
B. Tech in Computer Science and engineering	Graphic Era University, Dehradun	2023-Present
12, CBSE	Army Public School, Meerut Cantt	2021-2022
10, CBSE	Army Public School, Ahmedabad Cantt	2019-2020

Soft Skills

- Problem Solving, Analytical Thinking, Adaptability, Team Collaboration
